\* The measurements and the weight may vary slightly by the finish that is added to the panel.  
\*\* Steel thickness according to the EN 10346.

## STANDARD COLORS

More colors available.  
Ask your dealer for information.

## INSTALLATION

Shake can be installed left to right or right to left. A 13 inch (330mm) offset provides maximum visual appeal and performance.

Panels are placed on nominal 2x2 wood battens spaced 14.5" [368mm].

A downturned front edge (nose) and upturned rear edge (shelf) on each tile creates a strong, weatherproof, overlapping and interlocking assembly. Each tile is secured with four nails in the panel nose, away from water channels.

## ACCESSORIES

Varitile offers a broad range of accessories.

- **Ridges, junctions and end caps.**  
Offered in angled, squared and curved profiles.
- **Fascia, sidewall and headwall transition flashings.**
- **Ventilation systems.**
