www.varitile.com

An authentic Mediterranean look for your home.

Varitile Roman's robust aesthetics and minimal weight bring the charm of Mediterranean clay tile roofs to any structure. A heart of Zinc-Aluminium coated steel with advanced stone granule coating guarantees optimal protection for your home without the weight, cracking and breakage associated with clay and concrete roofs.

Ask your dealer for information.

INSTALLATION

Roman tiles are overlapped right to left. For maximum visual appeal and performance, stagger at least one pan width.

Panels are placed on nominal 2x2 wood battens spaced 14.5" [368mm].

A downturned front edge (nose) and upturned rear edge (shelf) on each tile creates a strong, weatherproof, overlapping and interlocking assembly. Each tile is secured with four nails in the panel nose, away from water channels.

ACCESSORIES

Varitile offers a broad range of accessories.

- **Ridges, junctions and end caps.**
Offered in angled, squared and curved profiles.
- **Fascia, sidewall and headwall transition flashings.**
- **Ventilation systems.**
