 \*\* Steel thickness according to the EN 10346.

## COLORS

Color has a huge impact on the look of your house. Whether it is neutral shades, vibrant tones or subtle hues, there is something for everyone.

You can mix and match the wide color palette and profile to create something unique. With the special shades you create the perfect tones for your house.

Ask your dealer for more information regarding stock colors and leadtimes for special color and profile combinations.

## INSTALLATION

Mistral can be installed left to right or right to left.

The panels are placed onto battens spaced 368 mm or 14.5".

A downturned front edge (nose) and upturned rear edge (shelf) on each tile creates a strong, weatherproof, overlapping and interlocking assembly. Each tile is secured with four nails in the panel nose, away from water channels.

## ACCESSORIES

We offer a broad range of accessories.

- Ridges, junctions and end caps.  
Offered in angled, squared and curved profiles.
- Fascia, sidewall and headwall transition flashings.
- Ventilation systems.
- Installation Equipment: nails, benders, guillotines.

It is important to use tools recommended by us.

For a complete and detailed list of accessories and more information regarding the installation of a Mistral roof, contact your dealer.
